5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

6. Claims 91-125 are rejected under 35 U.S.C. 102(e) as being anticipated by Dwek, US Patent Number 6,248,946, hereinafter Dwek.
7. Referring to claim 91, Dwek teaches a method (Col 4 lines 18-21) of providing data that is available on one or more data stores (Song File Servers 116) to a client device (client 130, Figure 1, Col 3 lines 44-49) comprising the steps of:

- a. providing a user interface (user interface 250, figure 2) associated with the client device (client 130) to enable the user to specify user desired data (Col 4 lines 35-38, user selection)
 - b. fetching the specified user desired data (Col 4 lines 63-65, locating music file) that is available on one or more of the data stores via a plugin module (figure 1, Col 4 lines 25-59, songs stores on online music database 114, song file servers 116 are available for users of computers 130 to select, the application that causes the song selections is the plugin module);
 - c. aggregating the fetched user desired data into a media stream (Col 5 lines 21-24, song files are formatted into a streaming compressed song file);
 - d. provide the media stream to the client device (Col 4 lines 65-67, returning back to user, and Col 5 lines 31-33).
8. Referring to claim 92, Dwek teaches the method of claim 91, wherein the user desired data comprises a list of data elements (music selections and the selected song files are viewed as the list of data elements, Col 4 lines 44-52).
9. Referring to claim 93, Dwek teaches the method of claim 92, wherein individual data elements contained in the list of data elements are located at diverse locations on one or more of the data stores ((figure 1, Col 4 lines 25-59, songs stores on online music database 114, song file servers 116 are available for users of computers 130 to select song files).
10. Referring to claim 94, Dwek teaches the method of claim 92, wherein the step of aggregating the fetched user desired data into a media stream further comprises:

concatenating the list of data elements to create the media stream (Col 5 lines 21-24, song files are formatted into a streaming compressed song file).

11. Referring to claim 95, Dwek teaches the method of claim 91, wherein the user interface provides categories of data (figure 3A).
12. Referring to claim 96, Dwek teaches the method of claim 95, wherein the categories of data include music categories (figure 3A).
13. Referring to claim 97, Dwek teaches the method of claim 95, wherein the categories of data include news categories (Col 12 lines 15-22, new recording release corresponds to news categories).
14. Referring to claim 98, Dwek teaches the method of claim 91, wherein the desired data comprises one or more music files that are played with a media player (Col 8 lines 19-26, songs are played by user's music player).
15. Referring to claim 99, Dwek teaches the method of claim 98, further comprising providing a music controller (Col 2 lines 16-26, figure 3A).
16. Referring to claim 100, Dwek teaches the method of claim 98, wherein the user interface enables a user to create music filters (Col 2 lines 16-23).
17. Referring to claim 101, Dwek teaches the method of claim 100, wherein a music filter comprises data on how frequently a music file is to be played (Col 2 lines 16-23, play frequency).
18. Referring to claim 102, Dwek teaches the method of claim 100, wherein the user interface enables a user to create a custom station (Col 9 lines 18-30, figure 3B).

19. Referring to claim 103, Dwek teaches the method of claim 102, wherein the user interface enables a user to share the custom station with another user (Col 9 lines 32-45).
20. Referring to claims 104-125 claims 104-125 encompass the same scope of the invention as that of the claims 91-103. Therefore, claims 104-125 are rejected on the same ground as the claims 91-103.
